Walk See Play

A Threatened Species Day and Biodiversity Month Initiative

Discover the mystery behind biodiversity along this walking track by looking for signs of wildlife presence and important habitat features.

Throughout the month of September, Council in partnership with the NSW Government want you to keep an eye out for and photograph a select list of identified tracks, traces and habitat features for a chance to name a Southern Highlands koala or glossy black-cockatoo. Who knows, you might be lucky enough to spot a threatened species like the glossy black-cockatoo on this sign!

Snapped a great picture? Share it with us with us on social media using the hashtag #WalkSeePlay.
