What is the Darcie Lowe Project

Darcie's unexpected passing in 2020, at the age of 18 due to an AVM (Arteriovenous malformation) deeply impacted her family and community. In her honour the Darcie Lowe Project was founded, and to date has raised \$25,000 for AVM research and \$16,000 for Elephant conservation in Thailand, where Darcie volunteered. All funds raised at our Resilient Hearts luncheon will be donated to the Feel the Magic Foundation, to continue their exceptional work in helping grieving children heal.

About the event

A wonderful, uplifting luncheon will be held at Centennial Vineyard Restaurant. As well as listening to an inspiring conversation with Dr Lucy Hone focusing on loss and resilience, we will be offering a delicious 2 course lunch, entertainment by local musician Ben Malone, a live auction, a raffle and lucky door prizes. Everyone is welcome. The day will be a heartfelt tribute to all those who have experienced loss, and your contribution will be much appreciated, and duly acknowledged.

Speaker - Dr Lucy Hone

In 2023, renowned resilience expert Dr. Lucy Hone engaged with 30,000 attendees globally through keynote speeches and training sessions, showcasing her unique blend of research and firsthand knowledge. Her TED Talk, "Three Secrets of Resilient People," received over 9 million views and was translated into 15 languages, underscoring Lucy's global impact as a change agent with a Ph.D. in wellbeing science and public health.

Our Charity Partner - Feel The Magic

Feel the Magic is an Australian charity that provides early intervention grieving education programs for children ages 7 to 18 to help them deal with the sadness and loneliness that comes after losing a parent, guardian, or sibling. Their mission is to provide a network of support so that mourning children and their families can navigate such difficult times. They aim to help grieving young people cope and develop resilience by reducing mental health issues related to childhood grief through evidence-based programs created by professional psychologists.
